Health and Safety Policy

Purpose

Hatfield Technologies Ltd is committed to maintaining a safe working environment.

Employee responsibilities

Employees must follow reasonable health and safety instructions, report hazards promptly, and use workplace equipment appropriately.

Accidents and incidents

Workplace accidents, injuries and significant near misses should be reported to a manager as soon as possible.

Fire safety

Employees must follow fire alarm instructions, leave the building using the designated evacuation route, and report to the designated assembly point.

Workstation safety

Employees should maintain a safe and suitable workstation and report equipment or environmental problems that could create a health risk.

Illness

Employees should not attend the workplace if doing so may create a health risk for colleagues.

Emergency

In an emergency, employees should follow site-specific emergency instructions and contact the appropriate emergency service where necessary.
